KATANA AIR GUITAR AMPLIFIER PREMIUM TONE, WIRELESS FREEDOM

Meet the Katana-Air, the world's first totally wireless guitar amplifier. Featuring new cutting-edge wireless guitar technology developed by BOSS, the Katana-Air gives you the freedom to jam and practice without hassling with guitar cables. And with support for battery operation, there's no need to plug into AC either, so you can literally play anywhere!

GT-1000 GUITAR EFFECTS PROCESSOR INDUSTRY-LEADING TONE WITH BREAKTHROUGH BOSS TECHNOLOGY

Delivering unmatched sound quality and musical expression, the GT-1000 ushers in a new era of performance in amp/effects processors. This premium tone machine debuts the groundbreaking new AIRD (Augmented Impulse Response Dynamics) technology, realized with decades of advanced BOSS research and supported by an ultra-fast DSP engine, 32-bit AD/DA, 32-bit floating-point processing, and 96 kHz sampling rate throughout.

JB-2 ANGRY DRIVE BOSS AND JHS PEDALS JOIN FORCES

To celebrate the 40th anniversary of BOSS compact pedals, BOSS and JHS Pedals have come together in a historic creative collaboration between the two industry leaders. Housed in the classic BOSS compact design, the JB-2 Angry Driver pairs the tones of the iconic BOSS BD-2 Blues Driver with JHS Pedals' popular Angry Charlie. Working closely together, the two pedal innovators have developed an all-new combined circuit with refined sound and performance perfectly tuned for dual-mode drive operation.

AD-10 ACOUSTIC PREAMP ADVANCED TONE TOOLS FOR SERIOUS ACOUSTIC PLAYERS

Anyone who plays an amplified acoustic guitar on stage knows what a challenge it is to get a sound that's as inspiring as playing the instrument acoustically. The AD-10 is your solution to this age-old problem, offering advanced sound tools that enable you to achieve rich, natural acoustic tones every time you perform. At its core, the AD-10 is a fully featured, dual-channel acoustic preamp/DI pedal with premium audio quality, deep sound-shaping options, and flexible connectivity. On top of that, ambience, chorus, and delay effects are built in, eliminating the need to carry external sound processing.
