SIH2 STEREO ISOLATION HEADPHONES

Now they're even better.

We have gone back to the drawing board to make one of our most popular hearing protection products, the Stereo Isolation Headphones, even better.

The new Stereo Isolation Headphones Version 2 (SIH2) features a redesigned larger driver in the ear cups that deliver a more powerful low end, cleaner mids and clear highs for a superior sound. Overall noise levels are reduced by 25 decibels, so that music can be listened to and played along with at safe volume levels. And the improved padded headband creates a more comfortable fit, making them enjoyable to wear for extended periods of time.

With the upgraded sound quality of these headphones, they are great for practicing, performing, or just listening to music in a loud environment.

SIH2:

- Reduces outside noise by 25 decibels
- 50m/m Dynamic Speaker Mylarcon
- Frequency Response: 20HZ - 20kHz
- 1/4" and 1/8" plugs

VINTAGE SNAPPY SNARE WIRES

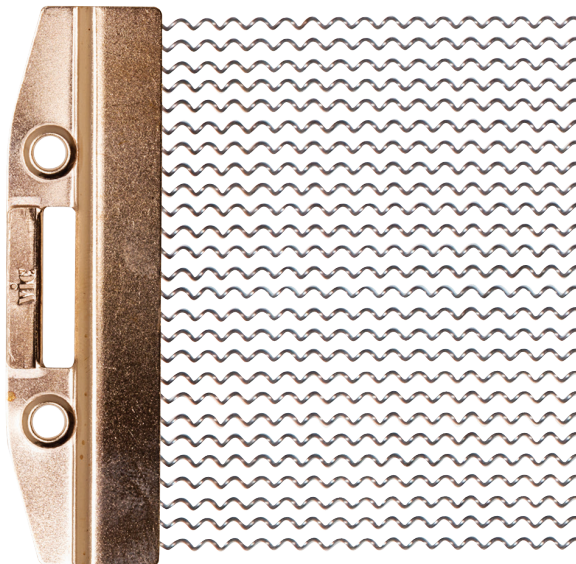

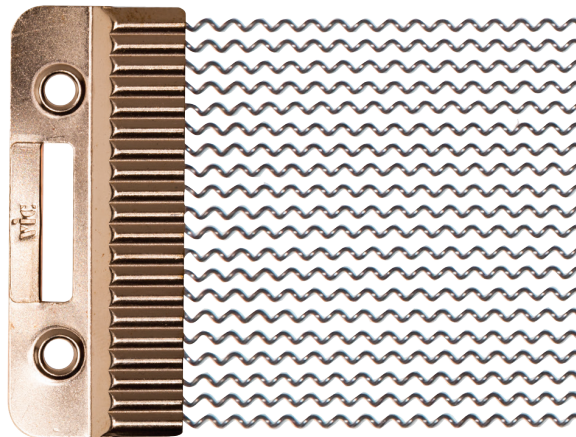

The sound is in the name.

Vic Firth Company has partnered with Canopus drums, makers of premium Japanese snare wires, to bring you the Vintage Snappy line of snare wires. The sound is in the name as these snare wires snap at all dynamic levels without choking the bottom snare-side drumhead. Your snare drum will sound fuller and have more tone.

Made from premium Japanese steel, the Vintage Snappy snare wires feature narrower-than-standard bronze end plates, which are perfect for modern and vintage snare drums.

The Vintage Snappy snare wires are available for 14" snare drums in two configurations:

- 20-strand model for standard depth drums
- 26-strand model to give you more snare sensitivity on deeper snare drums

New accessories every drummer needs.

VICKEY3 MULTI-TOOL

The first responder for every drummer's emergency call.

A variety of emergencies can pop up at a gig that might require more than a drum key, but who wants to carry a bag full of tools to every gig? No one.

That's why Vic Firth created the VicKey3 Multi-Tool. This new drum key tool combination features a 4mm hex wrench, a 3mm hex wrench, a Philips head screw driver and a snap-on drum key bit for the 4mm wrench. Made from steel so it will hold up for many years.

VICWAX

The tackier the better.

The VicWax drumstick wax is specially formulated to be 25% tackier than all other waxes on the market. Available in a convenient, compact container, VicWax is a handy way to apply any level of coating on the stick, according to a player's desired feel. And it's berry scented.

CLASSIC DRUMSTICK BAG

For today's drummer on the go.

Today's drummers need to carry more than just sticks. They typically lug their tablets, in-ear monitors, music and more. That's why we have created the new Classic Drumstick Bag. We have taken our popular VicPack Backpack's Drumstick Bag and modified it for the drummer on the go. Features include:

- Durable 600D nylon construction
- Heavy duty zippers
- Removable shoulder strap
- Interior has new floor tom attachment system with adjustable loops to hook on to any floor tom
- Carabiner hook provides a great place to put brushes
