## **9000 SERIES IMPACT DRUMS**

Available in four sizes—the 18" FB-9018, 20" FB-9020, 22" FB-9022 and 24" FB-9024—these Impact Drums are equally well-suited to the concert hall or the marching band.

At times, high schools and universities will use chairs to mount a bass drum horizontally. Unfortunately, this is an improvised arrangement that offers less-than-ideal results, both acoustically and aesthetically. The Impact Drum's new, extended leg mounting system solves this problem, enabling these percussion instruments to be positioned perfectly, while their birch shell construction allows for a sharper attack, yielding a more focused tone.

## **CSS-A SERIES SNARE DRUM**

The CSS-A Series features a steel shell that produces a sharp, clear tone, and hardware that is the same as the CSM-All Series. Coil snares provide easy playability even for beginners. This basic Yamaha model is ideal for wind ensembles and a wide variety of musical genres.

## **YEP-642TSII EUPHONIUM**

A main-tuning slide trigger system has been added to the wildly popular Neo series YEP-642II euphonium offering enhanced, precise pitch control. The new trigger system has been tested for extreme durability to withstand the toughest action. Also, the additional weight of the trigger system helps to achieve a greater depth of tone and clarity of articulation.

## **YEP-842TS EUPHONIUM**

A main-tuning slide trigger system has been added to Yamaha's flagship YEP-842S euphonium offering enhanced, precise pitch control. The new trigger system has been tested for extreme durability to withstand the toughest action. Also, the additional weight of the trigger system helps to achieve a greater depth of tone and clarity of articulation.

## **YTR-9335VSII VIZZUTTI LIMITED EDITION TRUMPET**

Based on the current Xeno Artist New York Series YTR-9335NYSII model, the YTR-9335VSII has been refined to provide a rare blend of slightly higher playing resistance and improved response, offering speed and definition that facilitate the type of detailed, delicate phrasing that is a hallmark of Allen Vizzutti's transcendent technique. The YTR-9335VSII also delivers solid tone that is not only well suited to classical genres, but offers plenty of character and presence for jazz and other styles as well.
