

YAMAHA New Products at NAMM 2018

The EAD10 acoustic electronic drum module instantly transforms your acoustic drum kit into a powerful digital/electronic hybrid with sampled sounds and studio quality digital effects. It allows you to play and record your acoustic drums along with your favorite artists from your music library or from tracks from your friends and share them digitally.

With the free iOS app you can shoot, edit and upload videos of your drum performances.

The EAD10 enhances every aspect of your drumming – the way you practice, record and perform live and makes your acoustic drums do more.
